

RESIDENT INPUT SUMMARY
Ed Reidy, Superintendent of Parks
2/14/18 to 3/15/18

Old Business – none

New Business

- 2/15 – A note from a Lighthouse Pointe resident was received asking for a controlled burn to the area around the Frankfort Township Event Center in order to deter coyotes.
 - 2/21 – I returned the call and left a voicemail message.
 - 3/15 – I spoke with a staff member of the Township Senior Housing, and a message was left for the neighbor.

- 3/1 – A call was received by the front desk in regards to a broken tree branch in Lighthouse Pointe.
 - 3/1 - I looked at the branch that afternoon and estimated there was approximately 20% of the original wood still holding the branch to the tree, now resting in the crown of branches. I looked for property markers to identify if the tree was on FSPD property or the neighbor's property, as it is located in a thick wooded area. I spoke with the neighbor who initiated the call and thanked her for making us aware of the situation.
 - 3/2 – Jim Randall and I gave the tree and area a visual inspection. Direction was given to identify the property line.
 - 3/2 – I contacted the original surveyor of the park, MGA2.
 - 3/9 – I followed up with MGA2, as I had not heard from them.
 - 3/12 – MGA2 called and said they could locate the property line within the next week to 10 days.
